Package	Acceptance Criteria	Results
Primary Package	Container dedusted and wiped clean Container caps screwed on tight	Conforms
Secondary Package	Carton Sturdy and clean Sufficient cushion material exists Carton taped on all sides	Conforms

Please Note: Bulk tinctures assume an oil density of 0.92g/mL. Therefore, 30mL bottles should be filled with 27g of bulk formulation per 30mL bottle to ensure accurate dosing.

When mixing these formulations, bubbles may arise which will cause the formulation to appear cloudy. If this occurs, mix formulation thoroughly and let settle for 10-15 minutes and it will return to a clear mixture.
